CATALOG

ORCHIDS ARE FOR EVERYONE

Listed in this catalog are fine seedlings at modest prices, as well as some of our rarer stock for the connoisseur.

Our sturdy seedlings and plants, of which we are justly proud, prove that the Gore collection of parent plants is one of the finest in the world. Our reputation is that of a producer of quality orchids.

Some of the varieties are limited, so we suggest that you order early to avoid disappointment. Reservations will be made if necessary, and you will be notified when they are ready.

Your order will receive prompt and careful attention. Plants will be shipped via Railway Express, collect, out of pots, unless otherwise specified.

CARE OF ORCHIDS IN THE HOME

Location--

Place the orchid plant near a window or under a tree, giving it as much light as possible. Do not let the sun shine on the plant except early morning or late afternoon.

Watering--

Pot water the plant heavily by filling the pot completely once a week. During the hot summer months give a light spray over the leaves daily. During the cool winter months apply a light spray over the leaves about twice a week.

Temperature--

Cattleya plants like "comfortable living" home temperatures.

Humidity--

If plants are grown indoors where there may be heat, the pot can be placed in a tray containing gravel or small pebbles. Keep some water in the tray with the water level being constantly below the bottom of the pot.

Repotting--

Plants should be repotted on an average of every two years, or when the plant starts growing outside the pot. We will repot your orchid for a slight nominal fee when needed.

Fertilizing--

We recommend fertilizing vandas, phalaenopsis and all botanicals once a week, alternating with an organic fertilizer one week and a chemical fertilizer the next week. Cattleyas should be fertilized at least once a month. We recommend using 30-10-10 for plants potted in bark. Plants potted in osmunda or Mexican tree fern can be fertilized with any all-purpose plant food.

GROWING SUPPLIES

We have the sole distributorship here in South Florida for Silvabark. This bark comes in three different grades - fine, medium and coarse, and is by far the most outstanding media we have ever used. We are using this bark exclusively for all of our growing. A two-cubic foot bag retails for \$4.50. We also sell trial bags at \$1.00. Ton-lot prices will be given upon request.

We also handle all growing supplies and fertilizers for the growing of orchids.
